Profile

I am an accomplished young man. I thrive on the freedom of the web, its wild west ways, and its great optimism. Discipline and a strong work ethic ensure that I am successful in my endeavors. Ruby, jQuery, the web, and airplanes excite me.

Endeavors

Twinstang Redesigned - Digital pilot logbooking - Present

<http://staging.twinstang.com> Twinstang is a web application for pilots to digitally log and track their flight hours. It is being redesigned to have a social aspect.

Investapp - Organize your investment group - Released May 2009

<http://investapp.com> Investapp organizes your investment group. Discuss stock picks as a team. Keep all your comments in one place and see who is buying at the right times.

MissMint - Reminder service for women - Released April 2009

<http://missmint.com> Miss Mint helps you remember to take your daily birth control pill. It's free, discrete, and sends additional reminders if you forget to answer yes.

FlossedToday - Have you flossed today? - Released February 2009

<http://flossedtoday.com> Flossed Today helps you remember to floss. It's completely free - built and conceived in my spare time.

Owner/Founder, Spitfire Sky; Perris, CA - August 2006 - Present

<http://spitfiresky.com> Established small web design business in the Inland Empire with focus on Ruby on Rails programming. Responsibilities besides programming include accounting, marketing, client management, and web design.

Education

Pepperdine University, Malibu, CA - Bachelors of Science in International Business, 2006
Pilot's License, Hemet, CA - Earned Pilot License April of 2008
